Learner Worksheet

Course: Semiconductor Process Fundamentals Masterclass

 Course code: C716
 Package: v1.0 | 1 October 2026
 Activity: 2 - Diagnose a Pattern-Transfer Process Window
 Alignment: LO1
 Duration: 60 minutes

Scenario Restatement

In your own words, describe the process-integration decision that this activity requires.

Response:

Process and Evidence Table

Stage / issue	Intended function	Input or risk	Measurement / evidence	Decision or follow-up
1				
2				
3				
4				
5				

Analysis Questions

Question 1

Why can improving resolution reduce depth of focus?

Response:

Question 2

When does additional over-etch protect yield, and when does it create reliability risk?

Response:

Decision

Select one: Release / Conditional Release / Hold / Scrap / Proceed / Defer

Evidence-based rationale:

Next action, owner and due date:
